*Marketing For Success*

From our President

Growth is a mind set.

As we approach our busy season let's get in the frame of mind that we are going to make it happen. Sometimes it's hard to talk to other photographers because they are so negative. Don't let others dictate what your life is going to be. Yes - our profession has changed so that means we have to change with it. We are professional photographers which mean we know how to use light. Ask yourself: what other things can we photograph and make money at? What about video? Maybe we should explore this market. We are only limited to what your mind set is at. Think outside the box and let's all have a good year.

To our success,

Greg Loll, Master, CPP
