Wedding Competition Rules

Please review thoroughly!

The purpose of this competition is to allow photographers to enter digital files, or digital albums to be judged against a standard of excellence using the 12 Elements of a Merit Image. (For more information, go to PPA.com/IPC.) In addition to the twelve elements, for an image to be merit worthy in the wedding competition, additional evaluation will be considered for the entries that illustrate the personality of the subject or subjects and the story of the wedding as well as the artistic and technical skills of the image-maker.

Judges will keep in mind that the maker has limited control over many aspects of a wedding. For example: subject matter, environment and time of day. Ultimately, additional consideration will be given to the maker for technically and artistically executing at a merit level in spite of the challenges involved at a typical wedding.

Images and all elements of an image in the Wedding competition must be created in connection with an actual wedding. The entrant or entrants must have captured all elements of the final submission from that wedding. Images in the Wedding competition should reflect the personality or personalities of the subject(s) or the story of the wedding as well as the personality, artistic and technical skills of the image-maker. Images should include some kind of visual wedding reference(s).
